

South African Telecoms Hosted Phone Systems

High Quality Affordable
Phone Systems Backed By
Superior Service

Performance and Power

Our Hosted PBX services are delivered over a secure Voice over Internet Protocol (VoIP) platform that guarantees excellent call quality at lower rates. It also supports other communication applications that can make your business telephone system more effective.

Evolve with Technology

Besides being far more cost-effective than conventional fixed line voice options, Hosted PBX systems offer two key benefits that make it easy to keep your business connected in the digital economy: The service isn't limited to a physical location. Our VoIP platform can also enhance your communications by enabling voice, data and other media traffic to converge on the same network.

FREE Maintenance

We offer our **Free Remote Login Maintenance Service** with our iServ PBX systems, at **No Extra Cost. Same day fault repairs.** No longer do you have to wait days for a technician to be dispatched, to attend to faults.
