

# South African Telecoms iServ PBX Business Phone Systems

High Quality Affordable  
Phone Systems Backed By  
Superior Service

## Performance and Power

Designed with the small and medium sized enterprises in mind, supporting up to 500 users and built using the very latest technology, South African Telecoms iServ Yeastar PBX systems deliver exceptional cost savings, productivity and efficiency improvements, delivering power, performance, quality and peace of mind.

## FREE Maintenance

We offer our **Free Remote Login Maintenance Service** with our iServ PBX systems, at **No Extra Cost. We can log into your PBX telephone system remotely the same day you log a fault and even test your Telkom lines and report any Telkom line faults on your behalf.**

No longer do you have to wait days for a technician to be dispatched, to attend to faults.

## Telephone Systems Without Risk

Built with the future in mind, utilizing the latest technology advances, from Freescale industrial grade Quad Core processors, TI DSP voice processors, and long-life power units and lightning protection.

### Key Features and Benefits

Works with SIP/IAX2, PSTN lines, ISDN BRI, E1/T1/PRI, and GSM/3G

Voice Recording capability

Powerful Apps (add-ons) include Linkus Mobile Client, Auto Provision, LDAP, Conference Panel, VPN Server, Billing App & Hotel App.

Convenient integration with cloud call center, PMS, and CRM

Free lifetime software/firmware upgrade and above all, it's super easy

Connect multiple sites and remote users instantly

No hidden charges and extra licensing fees

Low power consumption (1.8-59.1 watt)

# Play Safe and Expect Reliability

With advanced failover, security, monitoring and reporting capabilities as standard, combined with an internal firewall and with support for TLS and SRTP encryption, there has never been such a robust system.
