The most affordable home, business telephone line solution in South Africa

Our telephone lines are an alternative telecommunications connectivity solution to traditional "telco" fixed line services.

Our high quality telephone lines make use of proven first tier technology and networks using ICASA-licensed tier-one networks. Our clients get all the features of a first tier telephone network, and much more competitive pricing.

Take control of your telephone needs

Reduce your telephony costs with our simple cost effective telephone lines which have cheaper line rentals and cheaper telephone call rates, with pure per second billing.

Keep your existing Telkom numbers

We are able to port your existing Telkom numbers over to your new telephone lines - this means you keep your same telephone number for life, no matter where you relocate to in South Africa.

Some good reasons why it is time to change to our telephone lines

- * Keep your same telephone numbers.
- * Proven first tier technology and networks.
- * Alternative for fixed lines (Telkom is stopping copper lines).
- * No risk of cable theft.
- * Highly competitive rates.
- * Month to month service.
- * Never miss an incoming call - your incoming calls are automatically forwarded to your cellphone, when your lines are out of order.
- * Fast and efficient installations.
- * **FREE** Lifetime maintenance.
- * **FREE** Caller line identity.
- * **FREE** Waiting call.

FREE desktop handset on 12 months.
